PROFESSIONAL SUMMARY

Results-oriented Software Engineer with over 10 years of progressive experience in enterprise software development, cloud infrastructure management, and IT systems administration. Proven expertise in designing and deploying scalable business solutions using .NET technologies and Azure cloud services. Currently advancing technical leadership capabilities through postgraduate studies in IT & Strategic Innovation. Demonstrated ability to translate complex business requirements into robust technical solutions while mentoring teams and driving digital transformation initiatives.

CORE COMPETENCIES

Software Development

- Programming Languages: C#, JavaScript, SQL, HTML, CSS
- Frameworks & Technologies: ASP.NET MVC, .NET Framework
- Databases: Microsoft SQL Server, Oracle Database
- Reporting Tools: Crystal Reports

Cloud & Infrastructure

- Cloud Platforms: Microsoft Azure (IaaS, PaaS, Virtual Machines, Storage, Networking)
- Server Administration: Windows Server (Active Directory, Group Policy, DNS, DHCP)
- Networking: TCP/IP, Network Configuration, Troubleshooting

Enterprise Systems

- ERP Systems: IFS Applications (Administration, Customization, Report Development)
- System Support: Technical Support, User Training, Documentation

Design & Multimedia

- Graphic Design: Adobe Photoshop, Adobe Illustrator
- Video Editing: Adobe Premiere Pro

Productivity Tools

- Microsoft Office Suite: Advanced proficiency in Word, Excel, PowerPoint, Outlook

WORK EXPERIENCE

Manager- Software Engineering | Revolution Tech Software Solutions | Ja Ela, Sri Lanka (2022- Present)

KEY RESPONSIBILITIES

- Managed the full software development lifecycle (SDLC) from requirements definition through design, development, deployment, and ongoing maintenance.
- Engineered and deployed enterprise-grade applications using ASP.NET MVC, C#, and SQL Server, streamlining core business operations through scalable software architecture.
- Collaborated with stakeholders to perform in-depth technical requirements analysis, ensuring 100% alignment between software deliverables and strategic business objectives.
- Administered and optimized Microsoft Azure environments, maintaining 99.9% system uptime while reducing operational costs through efficient resource utilization.
- Architected robust disaster recovery and backup strategies, mitigating risk and safeguarding critical business data to ensure uninterrupted business continuity.
- Directed end-to-end QA lifecycles, including Unit, Integration, and User Acceptance Testing (UAT), to ensure the delivery of high-performance, bug-free systems.
- Provided Level 3 (L3) support for complex system troubleshooting and conducted knowledge-transfer sessions to accelerate system adoption and team productivity.

Technologies: ASP.NET MVC, C#, SQL Server, Azure Cloud Services, Crystal Reports

Process Leader | Stafford Motors (Pvt) Ltd | Colombo 01, Sri Lanka (Jan 2022 - Sep 2022)

KEY RESPONSIBILITIES:

- Oversaw the entire software development lifecycle (SDLC), including requirements definition, design, development, deployment, and continuing maintenance.
- Led requirements gathering and analysis for business process automation initiatives, translating operational needs into scalable technical solutions.

- Enhanced and optimized existing in-house systems to improve operational efficiency, system performance, and user experience.
- Developed custom management and operational reports within the IFS ERP system, enabling data-driven executive decision-making.
- Delivered comprehensive system training and user enablement sessions for cross-functional teams to ensure effective system adoption.

Technologies: Azure Cloud Services, Windows Servers, Active Directory, LAN & WAN Configurations C#, ASP.NET MVC, SQL Server, IFS ERP, Crystal Reports

Application Developer | Stafford Motors (Pvt) Ltd, Colombo 01, Sri Lanka (Aug 2019 - Dec 2021)

KEY RESPONSIBILITIES

- Developed and maintained mission-critical business applications supporting end-to-end automotive sales and service operations.
- Administered and optimized the IFS ERP system, including user management, system configuration, and performance tuning across multiple business units.
- Managed IFS system deployments, upgrades, and complex issue resolution, ensuring high availability and minimal operational disruption.
- Designed and delivered custom Crystal Reports for financial analysis, inventory control, and sales performance monitoring.
- Implemented security controls and backup procedures to ensure data integrity, system resilience, and regulatory compliance.
- Provided enterprise-wide technical support, reducing average issue resolution time by 40% through effective troubleshooting and process improvements..

Technologies: C#, ASP.NET, SQL Server, IFS ERP, Crystal Reports, Windows Server

IT cum Admin Executive | Green Garden (Pvt) Ltd | Ragama, Sri Lanka (Apr 2018 - Aug 2019)

KEY RESPONSIBILITIES

- Managed end-to-end IT infrastructure operations, including hardware procurement, installation, configuration, and ongoing maintenance.
- Maintained inventory management systems and administrative databases, ensuring accurate recordkeeping and data reliability.
- Administered HR information systems, supporting recruitment workflows, employee records, and payroll processing.
- Provided day-to-day technical support to 50+ users across multiple departments, ensuring minimal downtime and smooth operations.
- Coordinated with vendors and service providers for IT equipment procurement, maintenance, and warranty management, ensuring cost-effective and timely support.
- Supported administrative and compliance activities, including document control, reporting, and internal audits, by maintaining accurate digital and physical records.

Technologies: Windows Server, SQL Server, Active Directory, LAN & WAN Configurations, Windows Administration

Customer Facing IT Executive | DHL Country Office | Colombo 02, Sri Lanka (July 2017 - Jan 2018)

KEY RESPONSIBILITIES

- Partnered with sales teams to present and demonstrate DHL eCommerce platforms to enterprise customers, highlighting technical capabilities and business value.
- Provided consultative implementation and onboarding support, including system integration and configuration for client environments.
- Delivered technical troubleshooting and customer support, ensuring high service quality and customer satisfaction.
- Managed hardware inventory and maintenance at customer sites, ensuring availability and operational readiness.
- Documented and maintained system integration procedures, creating knowledge resources for team efficiency.
- Monitored client system performance post-implementation, proactively identifying and resolving potential issues.

Technologies: MyDHL, MyDHL+, PDF-related Tools, XML Integration, and similar tools

IT Coordinator | Stafford Motors (Pvt) Ltd, Colombo 01, Sri Lanka (July 2017 - Jan 2018)

KEY RESPONSIBILITIES

- Managed installation, configuration, and maintenance of IFS ERP System and associated software/hardware infrastructure across departments.
- Implemented custom VB.NET solutions for IFS ERP System integration, streamlining data extraction and report generation processes.

- Coordinated with vendors for software licensing, updates, and support contracts, ensuring compliance and cost efficiency.
- Automated IT workflows and business processes through development, significantly reducing manual tasks and increasing operational efficiency.
- Trained end-users on System functionality and custom applications, creating documentation and conducting workshops to improve system adoption and productivity.

IT Executive | Jayawardena Enterprises (Pvt) Ltd | Kelaniya, Sri Lanka (Feb 2012 - March 2015)

KEY RESPONSIBILITIES

- Installed, configured, and maintained IT infrastructure, including networks, servers, workstations, and peripheral devices.
- Supported enterprise systems and databases, ensuring optimal performance, stability, and data availability.
- Administered user accounts, permissions, and access controls, maintaining system security and compliance.
- Responded to technical incidents and service requests, delivering timely resolutions and minimizing downtime.
- Trained staff on IT systems, applications, and security best practices, improving adoption and reducing errors.
- Monitored network and system performance, identifying and resolving potential bottlenecks proactively.

PROJECTS

QuickBooks integrations for Check and Voucher printing

Client -One Step (Pvt) Ltd

Paperless Approval System

Client : Stafford Motor Co (Pvt) Ltd
